

Evidence-Based Librarianship in Corrections

Project Title	Evidence-Based Librarianship in Corrections
Project Summary	As an important member of our team you will provide research assistance to the project manager in the form of literature reviews, drafting content for website updates, and proofreading.
Country	United States
Agency	National Institute of Corrections
DoS Office	N/A
Post	N/A
Section	N/A
Number of Interns	1

Project Description

The e-intern will be asked to provide research assistance in support of Evidence-Based Librarianship in Corrections (EBLS), a project of the National Institute of Corrections. The project will examine librarianship as performed in a correctional environment and analyze available research and interventions that can be used for improving current processes in support of a variety of public safety goals.

The e-intern will be expected to attend weekly check-in meetings to update the project manager on assignment progress. Assignments may include reviewing available research, analyzing data, drafting updates for the project webpage, designing presentation materials, proofreading, and notetaking.

The e-intern may also attend onsite meetings if desired if the e-intern is located near one of NIC's offices in Washington, DC, or Aurora, Colorado. No travel expenses or other stipend is available for this e-internship.

Desired Skills Interests

Additional Information

An interest or experience in criminal justice (especially corrections) or library and information science (especially with regard to special library operations) is desired. Other relevant disciplines may include social work, secondary education, organizational studies, or social theory. The ideal candidate will be familiar with basic research methods, especially with regard to qualitative and mix-method studies.

Hours for the internship are flexible and can be crafted around an academic schedule.

Language Requirements

None
